

the uva bay game

Thomas C. Skalak and Philippe Cousteau

*Vice President for Research
University of Virginia*

*Co-Founder, Azure Worldwide; Co-Founder and CEO,
EarthEcho International; Chief Ocean Correspondent,
Animal Planet and Planet Green; and Chief Spokesperson
for Environmental Education, Discovery Education*

invite you to join us on 8 April 2010 for a demonstration
and celebration of **The UVA Bay Game**.

Developed by a multi-disciplinary team of UVA faculty members and students and the first of its kind, the UVA Bay Game simulates the human impact on the Chesapeake Bay. Guests will have the opportunity to learn about the Bay Game and its many applications by experiencing more than 150 students taking the roles of farmers, watermen, developers, and policymakers and witnessing how their choices affect the health of the Bay ecosystem.

This cutting-edge, interactive event will be hosted by Philippe Cousteau, grandson of legendary explorer Jacques Cousteau. Students, experts, and guests will be engaged in a thought-provoking journey ten years into the Bay's future.

Location

**Charles Brown Science and Engineering
Library, Clark Hall, University of Virginia
Charlottesville, VA**
